

# What?

The Wellness Policy sets goals for.....

## Nutrition

Integrating health education into K-6 core academic subjects before, during and in after-school programs.

Encouraging parents/guardians to support student wellness by considering the nutritional quality and portion-size of items they send for snacks/lunch.

Complying with new district guidelines for non-food birthday parties, healthier celebrations and special events.

The District prohibits the marketing and advertising of non-nutritious foods and beverages on school sites. Staff, parents and visitors are strongly encouraged to use non-descriptive containers for food and beverages they consume while with children.

## Physical Education & Activity

Teachers and other school and community staff are discouraged from withholding opportunities for physical activity (e.g., recess, Physical Education) as punishment.

Supplying a standards-based K-6 physical education program emphasizing physical fitness, positive health practices, and skill development, that meets or exceeds the State mandated instructional minutes required.

# Why?

## Let's Put it in Perspective.....

In an unprecedented Height & Weight Surveillance Project, CVESD measured the Body Mass Index (BMI) of over 25,000 students in the district starting in 2010. The District found:

Nearly  
**40%** of CVESD (K-6) students measured as **overweight or obese** in 2010

**47%** of CVESD 6<sup>th</sup> graders measured as **overweight or obese** in 2010

Since the 2010 study, the District has

- strengthened the **Wellness Policy**
- made changes to schools' **food and physical activity policies and environments**
- Expanded CVESD's **Wellness Committee** consisting of parents, District employees, and community organizations to assist and advise the District on health-related issues.

## Our Results:

**17%** **decrease** in the **obese** category from 2010 to 2016  
AND

**8%** **decrease** in the **overweight** category from 2010 to 2016

If you would like to be involved in the CVESD Wellness Committee, contact Heather Cruz at 619.425.9600 x1514

## Wellness Policy Nutritional Guidelines

The Board of Education believes...  
*foods and beverages sold to students on school campuses during the school day should promote student health and help reduce childhood obesity.*

## Fundraisers/Food Sales

The only foods that can be sold to students at school from midnight through 30 minutes after dismissal are reimbursable school meals and foods and beverages that comply with the California Smart Snacks in Schools nutrition standards. (CVESD BP 5030)

School organizations are **strongly encouraged** to use non-food items and/or **healthy food items for fundraising purposes and special events**. If food is used, there should be an effort to balance healthier, appropriate portion-size food choices with non-nutritious items.\*

\*See back for ideas

## Classroom Celebrations

CVESD **prohibits the use of food items in celebration of a student's birthday** during the school day (midnight through 30 minutes after dismissal). Additionally:

- No more than 2 celebrations *with food* per year
- Food items should be store-bought and pre-packaged for food and allergy safety

## Rewards & Incentives

- The District emphasizes non-food incentives
- Staff is encouraged to use physical activity as a reward
- Food as a reward is **strongly discouraged**
- If food is used as a reward, it must be nutritionally compliant (CA Smart Snacks in Schools).

## Health Tip

Calories In = Calories Out  
Energy is measured as calories  
Energy expended during physical activity  
Equals a **Formula for Good Health!**

## Did you know...

Elementary-age children are experiencing higher rates of obesity, diabetes, high blood pressure, and heart disease due to poor dietary practices and lack of physical activity.

Children who don't get enough sleep or who don't eat breakfast have a harder time concentrating in the classroom.

Too much TV/computer time has been linked to lower reading scores and attention problems.

The more physically fit children are, the higher they score on academic tests.

HEALTHY HABITS FOR HEALTHY COMMUNITIES

- 5** or more fruits & vegetables
- 2** hours or less recreational screen time\*
- 1** hour or more of physical activity
- 0** sugary drinks, more water

\*Keep TV/Computer out of the bedroom. No screen time under the age of 2.
